Quick Reference Guide for aria Digital Key Telephone

Fixed Feature Buttons

- •FLASH button may be used to terminate an outside call and re-seize dial tone without having to hang up the handset.
- SPEED button provides you with access to speed dialing, save number redial and last number redial.
- TRANS (TRANSFER) button is used to transfer an outside call from a station to another.
- CALLBK (CALLBACK) button allows you to leave a callback indication at a station that is busy, unattended, or in Do Not
- CONF button is used to establish conference calls.
- DND/FWD (Do Not Disturb/Forward) button allows you to forward your calls to another destination, or make DND mode.

- MUTE button allows you to switch the built in microphone on or off when using the speakerphone or the handset microphone when using the handset.
- MON button enables you to make a phone call with-out lifting handset. It turns the telephone on and off when using the speakerphone.
- HOLD button enables you to place an outside caller on hold.
- REDIAL allows you to make last number redial and auto call number redial.
- ▼ VOLUME ▲ bar allows you to adjust speakerphone and handset volume.

Call Forward

- Press MON button.
- Press DND/FWD button and dial the desired Call Forward type.
 - 1 : Unconditional
 - 2: Busy calls
 - 3: No answer calls
 - 4: Busy/no answer calls
 - 5 : Station off-net
 - 6: Incoming outside line to off-net (ATD only)
 - 7 : DVU forward for no answer/busy
 - -#: Cancel previous call forward
- · Dial the station number or press DSS button or intercom group where calls are forwarded. (Confirmation tone is heard.)

Call Wait (Camp-on)

If you dial a busy station, you may alert it to your call.

- After receiving intercom busy tone, dial * or the last digit of called station number or press DSS button.
- When the called party answers, consult with them or hang up to transfer the call.

Conference

- Call the desired party (internal or outside). When called party answers, press CONF button.
- · Add next conference party by selecting another outside line or intercom station.
- When the party answers, press CONF button twice. All parties are connected.

To terminate a conference,

The conference initiator should be actively in the conference.

· Hang up, or press CONF button to finish the conference (only for conference initiator).

Leaving a Message Waiting Indication

If you dial a station that is unattended or in Do Not Disturb, you can leave a message waiting indication.

- · Dial the desired intercom station. Busy tone or DND tone is heard.
- Press CALLBK button. The called party's CALLBK button LED will flash.

To answer a Message Waiting Indication,

- Press flashing CALLBK button and the station that left message will be signaled with tone ringing.
- If called station does not answer, press the CALLBK button once to leave a message.

Last Number Redial

The last dialed number on an outside line is saved.

- Press REDIAL button. Or,
- Press SPEED button and dial *.

Universal Night Answer

When a CO call is ringing (If programmed by Installer)

• Dial 6 9, the CO call is connected

Placing an Outside Call on Hold

While connected to an outside line,

- Press HOLD/SAVE button.
 - Once for system hold
 - Twice for exclusive hold
- Reverse if hold preference is programmed to system hold.
- Press HOLD/SAVE button. CO line call will be put on hold according to the Hold Preference.

Call Transfer

While connected to an outside call,

- Press TRANS/PGM button.
- Dial station number or DSS button. (You can select a screened or unscreened transfer.)

Screened Transfer

When that extension answers, announce the transfer and hang up to complete call transfer.

Unscreened Transfer

When the called extension begins to signal, hang up to complete call transfer.

Storing Speed Dial Numbers

- Press TRANS/PGM button and then SPEED button.
- Dial the speed number bin.
- Station Speed Number bins:

aria 16(ver. 1.0~3.0) & aria 20W(ver: 1.0~2.0): 01~20 aria 20 & 16(ver. 4.0) & 20W(ver: 3.0): 01~19

- System Speed Number bin: 21~99 (Attendant programmed) Dial the phone numbers to be stored.
- Press HOLD/SAVE button to save the number.

To erase an exiting speed bin,

- Press TRANS/PGM button and then SPEED button.
- Dial speed number bin to be erased.
- Press HOLD/SAVE button.

Dialing a Speed Number

- Press SPEED button and dial the speed number bin.
- · When the called party answers, pick up the handset or use speakerphone.

Flexible Buttons Programming

- Press TRANS/PGM button.
- Press a flexible button to be programmed.
- See the below chart and dial the desired code.
- Press HOLD/SAVE button.

Direct Station Select: 700~720 (aria 20), 700~730 (aria 20W) 700~715 (**aria** 16) Call Wait (Camp-on).....TRANS/PGM + 8 5

Changing Time/Date Format

TRANS/PGM

TRANS/PGM

TRANS/PGM

TRANS/PGM

TRANS/PGM

TO change the date format on the LCD,

Press TRANS/PGM button.

Dial * 5

The format toggles between DDMMYY and MMDDYY.

To change the time format on the LCD,

Press TRANS/PGM button.

Dial * 6

The format toggles between 12-hour mode and 24-hour mode. (YY: year, MM: month, DD: date)

Attendant Clock Set

This feature allows the attendant to set the Time/Date without entering Admin Programming.

Button Procedure

TRANS/PGM

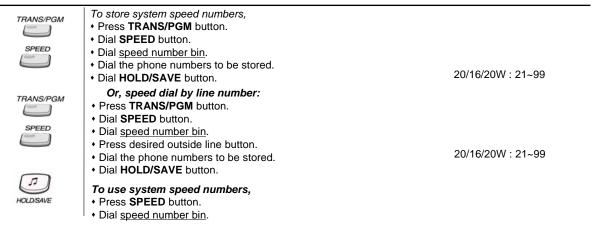

- Press TRANS/PGM button.
- Enter Date as MMDDYY (6 digits) and press HOLD/SAVE button.
- Enter Time as military format (4 digits) and press **HOLD/SAVE** button. If there is no need to change date or time, press HOLD/SAVE button to go to the next step.

Button Procedure To set the current time 1 hour early, Press TRANS/PGM button. Dial * 1. To set the current time 1 hour late, Press TRANS/PGM button. Dial * 2.

System Speed Dial

A group of speed dial numbers can be stored within the system for access by allowed stations. These numbers provide speedy access to often used outgoing CO dialing numbers.

Button Procedure

Attendant Intrusion

Attendant may intrude into any station which is in conversation with a CO line.

Button Procedure

To activate attendant intrusion

- Press CO button you wish to converse. (If intrusion is allowed by Admin program, then 3 way conversation is set up. If intrusion is not allowed, busy tone will be heard.)
- Requires Installer Programming Settings.

Day/Night Mode Service

The attendant station can be placed into night service mode allowing ring assignments and answering privileges to station not having the privileges in the day mode. In *aria* 20/16/20W,Day/Night mode change is available by pressing DND button at attendant station.

Button	Procedures
DND/FWD	To activate/deactivate Day/Night/On-demand mode manually, Press DND/FWD button at attendant station. Then, DND/FWD button is flashing. (The system is in On-demand mode.) If pressing the DND button one more, then the system is in Night service mode. On-demand mode is not activated automatically. (Auto Ring Mode – see below)

Auto Ring Mode Service

The system can be placed in Day/Night/Auto Ring mode operation manually by pressing [DND/FWD] button at attendant station. In Auto ring mode, the ring mode will follow the Weekly Time Table in Installer Programming. Available for ver 4.0(*aria* 16) and 3.0(*aria* 20W), all *aria* 20

Button Procedures

To activate/deactivate Day/Night/Auto Ring mode manually,

ullet Pressing **DND/FWD** button, the ring mode is changed to **Night** ullet **Auto Ring** ullet **Day** mode in sequence.

To activate Auto ring mode with Attendant PGM mode,

• The Weekly Time Table should be entered by Admin Programming

To Print out Accumulated SMDR Records

Station Message Detail Recording(SMDR) can provide details on both incoming and outgoing calls.

Button Procedures

For station basis,

- Dial TRANS/PGM + * 8 1
- · Enter the desired station range.

• Press HOLD/SAVE button. Accumulated SMDR records will be printed out through the printer connected to KSU.

Analogue Single Line Telephone User Guide for aria Telephone Systems

Placing an Outside Call

- · Lift handset.
- Dial 1.
- Dial the desired number.

Placing an Outside Call via CO Group Access

- · Lift handset.
- Dial 8 and CO group number. (1~4)
- Dial the desired number.

Placing an Outside Call via CO Individual Access

- · Lift handset.
- Dial 8 8 and CO line number: aria 20 & 16: 1~6, aria 20W: 1~8
- Dial the desired number.

Placing an Intercom Call

- · Lift handset.
- · Dial intercom number.

Placing an Outside Call on Hold

- While connected to an extension call, briefly depress and release the hook switch ('flash' the hook switch)
- Dial 59

Group Call Pick-up

When hearing an unattended phone ringing in your area,

- · Lift handset.
- Dial 6 6
- You will be connected to an extension or outside line call.

Message Waiting (Callback)

To Leave a Missed Call Message Indication (Idle Station):

- · Lift handset.
- Dial the desired extension number.
- No reply from a key station.
- 'Flash' the hook switch.
- Dial **5** 6
- Hang up.

To Leave a Missed Call Message Indication (Busy Station):

- Lift handset
- Dial the desired extension number.
- busy tone from a SLT or key station.

 δ 'Flash' the hook switch.

• Dial 5 7

To Retrieve a Message Wait Indication (Callback):

- · Lift handset.
- Dial 5 7

Your SLT calls the station which left the callback.

To Leave a Callback indication at a busy station:

- · Lift handset.
- Dial the desired extension number.
- busy tone from a SLT or key station.
- •'Flash' the hook switch.
- Dial 5 6

Your SLT calls the station which left the Callback.

Call Wait (Camp-on)

- After receiving intercom busy tone, 'flash' the hook switch and dial *)
- Camp-on tone is heard in the called station.
- The called station receives the ringing from camped on call when hanging up from original call.CO Line Hold

To place a CO call on hold:

• Hook-flash and dial 5 9

To recall a CO call on hold:

- Lift Handset
- Dial 8 # #

Answering a Waiting Call

- You will receive warning tone in handset.
- Hang up the present call to take a new one.

Making a Screened Transfer

- While connected to an outside line, 'flash' the hook switch.
- Dial the desired extension number and wait to be answered.
- Announce the call.
- Hang up to complete call transfer.

Making an Unscreened Transfer

- While connected to an outside line, 'flash' the hook switch.
- Dial the desired extension number
- Hang up to complete call transfer.

Last Number Redial

- Lift handset.
- Dial **5 2**

Storing Station Speed Dial Numbers

- · Lift handset.
- Dial **5 5**
- Dial speed dial number: 01~20.
- Dial speed dial number you wish to store.

வ'Flash' the hook switch.

• You will hear confirmation tone and hang up.

Using Speed Dial Numbers

- · Lift handset.
- Dial 58
- Dial the desired Station Speed Dial Number: 01~20.
 OR the System Speed Dial Number: 21~99

Establishing a Conference Call

The system allows you to set up a 3-way conference call.

- · Lift handset.
- Call the desired party. (outside or internal)
- •'Flash' the hook switch.
- Dial the internal extension number.
- When the other party answers, 'flash' hook switch twice in 2 seconds. (All three parties are now connected.)

Call Forward

- Lift handset.
- Dial 5 4
- Dial the desired call forward number.
 - 1 Unconditional, 2 Busy calls
 - 3 No answer calls, 4 Busy/no answer calls
 - 5 Station off-net # Cancel previous forward
 - 6 Incoming outside line to off-net (ATD Only)
- 7 DVU forward for no answer/busy
- Dial the station / group number to forward calls to.

aria 20A & 20: 700~720 / 61~64 aria 20W: 700~733 / 61~64 aria 16A & 16: 700~715 / 61~64

- Hang up.
- To cancel Call Forward, lift handset and dial 5 4 and #.

#3

Paging

- · Lift handset.
- Dial the desired page zone number.
- Give your message.

Call external zone:

 Hang up to complete paging. Page Zones:

Call All zones: # 0
Call All Internal zones: # 4
Internal zone 1: # 1
Internal zone 2: # 2

Voice Announcement

Recording Your Message;

- · Lift handset.
- Dial 54 + 7 + #.
- · Record your message.
- Replace the handset.

NB: Call Forward to DVU is automatically enabled after recording your greeting.

Deleting Your Message;

- Lift handset.
- Dial 54+7+*.
- · Replace the handset.

To hear the recorded Message.

- Dial 5 7.
- Time & date prompt for the recorded message is provided then voice message is played.
- Hang up. (The message is deleted automatically.)

Activate Call Forward to DVU,

- Lift handset
- Dial 5 4 + 7.
- Go on-hook.

Deactivate Call Forward to DVU,

- · Lift handset.
- Dial **5 4**
- Dial #.
- Go on-hook.

"Meet Me" Paging

When hearing a paging announcement,

• Dial # 6

Returning Call to Host System (FLASH to Line Feature)

If your *aria* system is connected to another system, you can use this feature to transfer a call back to an extension on the other system.

(Your installer will tell you if you need this feature.)

- While connected to an extension call, 'flash' the hook switch.
- Dial 5 1
- Hearing new dial tone from the other system, dial the extension number on the required system.
- When the station answers, (See Screened Transfer) speak or hang up (See Unscreened Transfer) to transfer the call.

Do Not Disturb (DND)

- Lift handset.
- Dial 53
- Place the handset.

To cancel Do Not Disturb,

- · Lift handset.
- Dial 5 3.

Shuttle Call

- An extension user engaged in an internal or external call, should briefly press hook switch to hold a call ('flash' the hook switch).
- The holding party hears music on hold. (If equipped)
- Dial the second number of another internal or external call.
- When the second call is connected, the extension user may alternate the call between holding parties by 'flashing' the hook switch.
- Then, you may make a conference by 'flashing' the hook switch.

Programming a Name for an SLT

- Lift Handset
- Dial 5 8 (confirmation tone is heard)
- Dial **0 0** (confirmation tone is played again)
- Enter the name using the table on page 10 (max of 7 letters)
- •'flash' the hook switch

Call Park

While on a CO call:

- · 'flash' the hook switch
- Dial the park number (601~606)
- Hang up the phone.

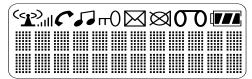

Retrieve a Parked Call

- Dial the Park Location (601-606)
- · You are connected to the calling party

20W Dect Supplement

GDC-340 LCD Display

The LCD of GDC-340H GAP has eight icons and 2 x 12 Dot matrix. The LCD shows different wireless states and displays visual feedback for the actions performed by user.

lcon	Description	
((p)		Blinking : When the icon is blinking, the terminal is still not locked to a base station and the location registration is not finished either.
		Steady: When it stops blinking, the terminal is locked to a base station but the location registration is not finished.
	લ્ <u>ક</u> ્રુગ	Location registration is finished. Even though user may make a call or receive a call, may hear very severe noise. (Below -86dBm)
©≜ 2.adl	œ. u	Even though user may make a call or receive a call, may hear severe noise. (-85dBm~-79dBm)
	ீ.ப ப	User may make a call or receive a call and may hear some noise. (-78dBm~-73dBm)
	œ.ul	User may make a call or receive a call and the call quality is normal. (-72dBm~-65dBm)
	œ.ull	User may make a call or receive a call and the call quality is good. (Upper -64dBm)

-	- Blinking: Indicates that a call connection is being tried Steady: Indicates that a traffic channel is established.
щО	Indicates that the phone is set to lock mode.
\bowtie	The icon indicates that the system has at least one new message for the wireless terminal. The message information is updated every 3 minute. The disconnection with the subscribed system makes impossible to update the message information and the icon is disappeared. And if the wireless terminal is connected with the system, this icon is displayed again on the LCD. If the station message is left, the reserved call is made by using CALLBACK button and this icon will be disappeared after the call. In case of voice message through DVU, press FLASH button to delete a message after checking the message. When all messages are deleted, the message icon will be disappeared. Otherwise, this icon will be still remained. Applicable message: DVU message, CLI message, Station message
×	Indicates that during a call, you can prevent the other party from hearing any background noise or conversations, by pressing the DOWN button longer than 1 second.
	Indicates charge level of the battery.
50	Indicates that the phone is tone mode.
